

## MANAGEMENT COMMENT LETTER

Board of Education  
Spencer-Van Etten Central School District  
Spencer, New York

In planning and performing our audit of the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Spencer-Van Etten Central School District (the School District) as of and for the year ended June 30, 2018, in accordance with auditing standards generally accepted in the United States of America, we considered the School District's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

During our audit, we became aware of certain matters that are opportunities for strengthening internal controls and operating efficiency. This letter summarizes our current and prior year comments and recommendations regarding these matters.

### OTHER MATTER

#### Resolved Finding

##### School Lunch Deficit Fund Balance

##### Finding:

During our prior year audit, the School Lunch Fund ended the fiscal year with deficit spendable fund balance of \$(3,713). The deficit was a result of expenses consistently exceeding revenues. For the year ended June 30, 2017, expenditures exceeded revenues by \$53,970. An interfund transfer from the General Fund of \$50,000 brought the net change in fund balance to \$(3,970) for the year ended June 30, 2017.

Resolution:

At June 30, 2018, the School District's School Lunch Fund had a spendable balance of \$16,860.

- GASB has issued Statement No. 88, "Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements," effective for the year ending June 30, 2020. - GASB has issued Statement No. 89, "Accounting for Interest Cost Incurred Before the end of a Construction Period," effective for the year ending June 30, 2021.

School District management will evaluate the impact each of these pronouncements may have on its financial statements and will implement them as applicable and when material.
